Cookies Policy

About This Policy

- This Cookies Policy explains our principles regarding the collection, processing, and storage of your personal information in connection with the use of cookies on this website. To get a complete picture of how we handle your privacy, please also read our Privacy Policy.

What Are Cookies?

- Cookies are small text files that are downloaded to your device, such as your computer, mobile device, or smartphone, when you visit our website or use our services. Cookies can be recognized by the website that downloaded them — or by other websites that use the same cookies. This helps websites recognize if your device has visited them before.

We use two types of cookies: persistent cookies and session cookies.

- Persistent Cookies: These stay beyond the current session and are used for various purposes, such as recognizing you as an existing user to make it easier to return to our website. Since persistent cookies remain in your browser, they will be read by us when you return to our website or visit a third-party website that uses our services.
- Session Cookies: These exist only for the duration of the current session (usually for the duration of your visit to the website or a browser session).

Do I Have to Accept Cookies?

- No, you are not required to accept cookies. However, please note that some services may be difficult or impossible to use without cookies. If you choose not to accept cookies, certain features, such as logging in or personalizing content, may not be available.
- You can adjust your browser settings to be notified when you receive a cookie. For more information, refer to your browser's documentation to learn how to enable or disable cookies. Although you can reject cookies, we recommend that you accept them to fully use all features of our website.

What Are Cookies Used For?

- Functional Cookies: These cookies are necessary to provide our services as intended. They are used to remember your preferences on our website and provide an enhanced and personalized experience. The information collected by these cookies is typically anonymized, so we cannot identify you personally. These cookies are typically session cookies but can also be persistent.

- Essential or 'Strictly Necessary' Cookies: These cookies are essential to provide our services. Without them, certain parts of our website will not function. They do not track where you have been on the internet or retain preferences beyond your current visit. These cookies are generally session cookies that expire when you end your browsing session.
- Analytical Performance Cookies: These cookies are used to monitor the performance of our website and services, for example, to determine the number of page views and the number of unique users. Web analytics services may be provided by third parties. The information gathered by these cookies allows us to analyze patterns in user behavior and improve the website. The information is anonymous, cannot be used to identify you, and is only used for statistical purposes.

Third-Party Cookies

- Our website may also use third-party cookies to provide certain features or services, such as web analytics or advertising from third parties.
- The information collected by these third-party cookies is processed by the third parties, and we do not have access to this data. We recommend that you review the privacy policies of these third parties to understand how they handle your data.

How Can I Manage or Reject Cookies?

- You can reject or manage cookies at any time by adjusting your cookie settings in your browser. If you block or reject cookies, some features on our website may not function properly.
- To block or delete cookies, follow the instructions in your browser's help section. For more information about managing cookies, please refer to the websites of the respective browsers.

Changes to This Cookies Policy

- We may update this Cookies Policy at any time to reflect changes in legal requirements or adjustments to our services. All updates will be published on this page, and the date of the last revision will be displayed at the top of the page.
